

The eighth traffic death of 1954 for Magic Valley occurred on March 21 as a result of an accident in Twin Falls county.

# Home Girl Is Dashed to Death Against Steel Rail as Auto Spins on Ice

City coroner, Dr. J. Woodson Creed, and police were still investigating at noon an accident on Perrine Memorial bridge early Monday morning which killed a girl and injured a boy.

The girl, Ann Morris, 20, Jerome, was killed instantly about 1:45 a. m. Sunday when she was thrown out of a convertible after it struck the bridge railing. State Patrolman M. J. Baer, jr., of Boise, reported. The sheriff's office reported officers were checking the scene.

It will be held. The coroner is determining whether Morris, route 1, a brother of the driver, the vehicle was registered to her and her mother.

# Evidence on Farm Prices Accepted in Phone Rate Probe

BOISE, March 22 (AP)—Mountain States Telephone and Telegraph company testified today that earnings on its Idaho investment declined in the last half of 1953. Resuming hearings on the rate case, the Idaho public utilities commission let the company present exhibits on its earnings for the last of the year and agreed that the Idaho Farm Bureau federation could present similar evidence on declining farm prices.

It also heard a protest against the rates from the Idaho State Federation of Labor before getting down to what is expected to be the main point of the rehearing: How much of the costs and revenue of Mountain States come from interstate service and how much from intrastate service.

The PUC is rehearing a rate increase request submitted by Mountain States in 1953, which it rejected in May, 1953. The company obtained a temporary injunction permitting it to collect the higher rates and asked for the rehearing.

Appeal Loses. Indications were that whichever way the commission now rules, the decision will be taken directly to the state supreme court.

When Gregg Polvin, American Falls attorney, objected to presentation of the new exhibits by the company, J. H. Shepherd, Denver, Mountain States attorney, told the commission it would not want to present the court a record "which is incomplete."

Gregg Polvin, Boise, another company attorney, said the exhibits showed that for all of 1953, the company's return on its Idaho investment under the existing rates was 5.1 per cent, compared to 5.4 per cent for the 12 months ended July 31, 1952. He said the rates had been in effect since 1948 and would have been 2.4 per cent for the year, compared with 3 per cent for the 12 months ended July 31.

Withdrew Objection. Polvin represents the Power County Farm Bureau. He withdrew his objection after being told that later evidence on price declines could be entered.

With Polvin as his attorney, Elmer McIntire, Boise, executive secretary of the Idaho State Federation of Labor, protested the higher rates because of economic conditions. He said unemployment was rising in Idaho and that many workers were being laid off.

Shepherd sought to strike from the record allegations in McIntire's complaint that Mountain States was a "captivity" of American Telephone and Telegraph company, obtained (Continued on Page 2, Column 2).

# Clubs Assist In Red Cross Drive in City

About 300 persons are participating in the Red Cross residential drive, Morris Roth, drive chairman, reported Monday morning.

Groups assisting with the canvass are the Twin Falls Business and Professional Women, the Newcomers club, Twentieth Century Club, St. Edward's Parents club, Catholic Women's League, and Exchange club.

However, "additional volunteers are needed to help with the soliciting, according to Roth. Volunteers are asked to contact Mr. George Baker, Red Cross executive secretary, telephone 101.

It is hoped the drive can be completed by March 25. Contributions Monday morning totaled \$3,807.10. Goal of the month-long fund effort is \$10,000.

# Fight Breaks Out Again as Attack Opens

HANOI, Indo-China, March 22 (AP)—The French high command announced today that violent fighting has broken out again at surrounding Dien Bien Phu and indicated that rebel infiltrators had penetrated close to the heart of the French defenses.

French troops started the battle again after a 24-hour lull during which the communist Viet Minh released prisoners and agreed to a truce. The fighting was reported to have broken out in the morning.

In fighting in which 14 rebels were killed and 100 wounded, the French troops found that the rebels had widened their way between the French positions, possibly in the area of the heavily fortified Dien Bien Phu. It was feared that the relaxation of enemy pressure was merely the calm before a new storm.

# Hailey Liquor Store Cleaned by Burglar

HAILEY, March 22—Blaine county officials and state liquor law enforcement officers are investigating the theft of 60 cases of liquor from the state liquor store here some time Sunday night.

Value of the liquor was placed at \$60 a case by Sheriff L. E. Outza who said the theft was reported to him at 8:30 a. m. Monday by R. R. Horne, manager of the liquor store.

Sherriff Outza said that the building was gained by cutting the door off a rear window of the store. The rear door then was opened and the liquor taken from the building.

Horne told the sheriff he had been at the store at 3 p. m. Sunday and that everything was all right at that time. It is believed a truck was used to take the liquor out of the store.

The Hailey burglary is the second in a series of liquor store robberies in Blaine county. The Arco liquor store was entered on Feb. 26 and, liquor valued at \$4,000 stolen.

# Two Senators Divide on Tax Revision Bill

WASHINGTON, March 22 (AP)—Senator Bill D. Aiken, said today that the Senate Finance Committee will not adopt a proposed \$200 million increase in personal exemptions for individual income taxpayers.

But Chairman William W. Borah, R., Colo., of the Senate Finance Committee, which will consider a house-approved tax revision bill, said he was "conceding anything on this score."

Administration forces last week defeated a 210-204 attempt by House Democrats to tack a \$100 million increase on the general revision bill.

And another tax cutting effort by a Democrat was announced Sunday by Senator Charles McNary, D., Ore. He said he will try to write \$20 million more reductions into the bill.

Douglas said he proposes reductions in "necessities and luxuries." He said the bill he advocates could make a \$50 per year reduction in the average taxpayer's income tax.

Douglas asserted that "the Republican program will not cure the deepening recession."

He said the tax revision bill now in the hands of the Senate Finance Committee "gives the average taxpayer a \$5 a year reduction in his tax load, while reducing \$1,700 a year from the taxes paid by the average stock owner making more than \$10,000 annually."

# Chavez Gains Voting Edge in Senate Fight

WASHINGTON, March 22 (AP)—Senator Chavez, D., N. M., appeared today to be gaining a voting edge in his battle to retain his senate seat. With debate opening on a resolution to declare his seat vacant because of election irregularities, Chavez seemed likely to benefit from Republican absences in a vote—possibly Tuesday—that is expected to follow party lines closely.

Senator Bridges, R., N. H., was taken to a hospital after a dizzy spell capital doctors said was brought on by a virus infection. There was doubt he would be able to return to vote Tuesday.

At least one other Republican senator has indicated that he will be absent and there was a developing controversy over whether the Democrats would grant what is known as "the pairs" for the GOP absences.

In a "live pair" a senator who is present votes not to vote, thus cancelling a vote of a senator on the other side of the question. Here, Republican leaders, including the GOP floor leader, indicated they would ask for "live pairs" for the GOP absences.

But Sen. Lyndon B. Johnson, the Democratic leader, said Republican previously had indicated Republicans not to give pairs to the Democrats.

Since the Democrats outnumber Republicans 48-47 and the lone Republican, Senator Charles McNary, R., Ind., is expected to vote with the Democrats, the "live pair" issue would be likely to benefit Chavez.

There were no outward signs of a break in the ranks of Democratic support for Chavez and one Republican said some GOP senators might vote to put Chavez out.

The issue is a recommendation by the Senate rules committee that Chavez's seat be declared vacant.

### Vacations, Sick Pay Okayed for Road Employees

BOISE, March 22 (AP) — Robert E. Smylie says Idaho way districts have with city their employees annual vacations and sick leave.

In an opinion requested by Ward Arney, Coeur d'Alene city attorney, the Idaho Supreme court today ruled that the city must pay for the vacations and sick leave of its employees.

"Labor under our system of government is competitive. In order for government of taxing districts created for specific purposes to compete with private business in the labor market, they must offer terms of employment and salaries which are competitively attractive," the federal government as well as tax districts have provided for the sick leave and vacation of their employees.

# TUCKER'S NATIONAL WHIRLIGIG

WASHINGTON—Rep. Franklin D. Roosevelt, Jr. announced his candidacy for governor of New York before the senate public relations committee at a recent unreported hearing. He challenged the Thomas E. Dewey to run against him.

Every politician in the small audience drew this conclusion from Roosevelt's remarks. They also thought that FDR, Jr. announced his candidacy for the Democratic presidential nomination in 1936, assuming that he defeated Dewey next fall.

Young Roosevelt revealed his ambitions during a 30-minute attack on Dewey's plan for New York State development of power on the Niagara river. Roosevelt originally favored a federal constitution and operation of this project along the lines of the Tennessee valley authority.

economic footprints of his father and Harry S. Truman. But when the house passed a bill for Niagara development by five private utility companies, Roosevelt, Jr. announced his candidacy for the Democratic presidential nomination in 1936, assuming that he defeated Dewey next fall.

Young Roosevelt revealed his ambitions during a 30-minute attack on Dewey's plan for New York State development of power on the Niagara river. Roosevelt originally favored a federal constitution and operation of this project along the lines of the Tennessee valley authority.

**FOUND WAY TO DISAGREE WITH DEWEY**—Roosevelt, however, does not appreciate the theory that Dewey's plan for Niagara development is a masterpiece of public utility. He had to find some way of disagreeing with Dewey, his prospective opponent. He did.

Roosevelt argued that Dewey's plan for Niagara development is a masterpiece of public utility. He had to find some way of disagreeing with Dewey, his prospective opponent. He did.

**ROOSEVELT'S PREDICTION**—But when committee members asked Junior how and when these differences over the status of preference customers could be reconciled, Dewey replied quite confidently. "Well, there will be an election for governor in New York next fall, and things will be different after that election."

Young Roosevelt also seemed to be taking in more political territory than New York state. Besides asking preference allocation of Niagara's output to New York, Dewey favored public power for the state. Dewey also favored public power for the state.

**SURPRISE WITNESS**—A surprise and devastating witness for the private companies was Rep. John J. Dempsey of New Mexico. Former governor of New Mexico and under secretary of interior during the Roosevelt administration, Dempsey is a member of the committee. He is a surprise and devastating witness for the private companies.

Dempsey is a member of the committee. He is a surprise and devastating witness for the private companies.

**VIEW OF OTHERS**—A telephone call helps keep a Cleveland vacuum cleaner manufacturer's sales climbing even in the highly competitive appliance market.

Farm equipment makers are consolidating jobs, trimming inventories, closing marginal facilities, introducing new and better machines and putting out new products. Other industries are engaged in similar activities.

**STATEHOOD WRANGLE**—Observers in the capital seem convinced that statehood for Hawaii has suffered a severe setback from the recent senate action combining this issue with Alaska statehood. There is no question the maneuver was a defeat for the administration, which wanted Hawaii considered alone, and first.

Some who voted for the combination sincerely believe equal merit is found in both statehood cases. Others either privately or publicly oppose statehood for either territory. They figure the combination cannot pass.

**FAIRM SURPLUS PLAN**—Paul McVane, assistant editor of the graphic section in veterans administration, has come up with still another idea for getting rid of U. S. farm surpluses. The McVane plan is to issue food stamps to people now drawing social security benefits, to make the surplus food available to them at 33 cents on the dollar.

McVane says his plan would reduce the food surpluses, cut the government's cash outlay for social security, increase the income of pensioners, and people on relief.

# POT SHOOTS

**ANENT TIME, LIFE**—And we're not writing about magazine covers. The other day when some joker in a hurry raised us between Kimberly and Twin Falls, we estimated his speed at 60 miles per hour in the 40-mile zone.

Not only that, but he took a little change when he passed, with one of those kinks right about the neck. He passed us just west of the Red Cap center and when we drove down Main, we spotted the car just ahead of us. He was not doing anything getting in the car.

**THAT MADE US SOMEWHAT CRISPY**—That made us somewhat crispy, so we sharpened a couple of pencils, got out a stack of scratch paper and started figuring. Of course, we're not much at figures, so we won't touch too much for them. But they're quite interesting.

We figured the distance between Twin Falls and Kimberly at exactly five miles just for the sake of making a little problem that much easier. It may be a little more or a little less, we don't know.

**WHEN WE GOT THROUGH FIGURING**—When we got through figuring, we learned that it takes about 33 seconds longer to reach Kimberly driving 60 miles an hour than it takes to reach Kimberly driving 40 miles an hour. And there are 40 ways to save that 33 seconds without violating the speed limit by 10 miles per hour.

Take the case of our friend who theoretically saved 33 seconds by speeding. He took longer than that to park his car. And if he had been caught, we presume the minimum fine would have been \$10 with another \$3 for court costs.

He had compelled the state department to get rid of 39 persons at the United Nations.

**HE HAD TAKEN A LEADING PART**—He had taken a leading part in the prosecution of the traitor Rosenberg brothers who went to the electric chair in Sing Sing. He ran the grand jury inquiries of the batch of so-called second string communists. They were convicted after the usual insane and painful difficulties. He had worked on the William Remington

# HOW THINGS APPEAR FROM PEGLER'S ANGLE

WASHINGTON—Temporarily at least the anti-McCarthy forces have stopped Joe McCarthy and subdued his gallant young associate, Roy Cohn. Strangely, Sen. Charles McNichols, the small audience drew this conclusion from Roosevelt's remarks. They also thought that FDR, Jr. announced his candidacy for the Democratic presidential nomination in 1936, assuming that he defeated Dewey next fall.

Young Roosevelt revealed his ambitions during a 30-minute attack on Dewey's plan for New York State development of power on the Niagara river. Roosevelt originally favored a federal constitution and operation of this project along the lines of the Tennessee valley authority.

**STRIPLING SPENT A WHOLE YEAR**—"yard bird" in the army without even a squad to call his own and when he finally was on the point of being released after 11 months of military service tried to send him to Japan for an unlimited time or the ground that he would be an invaluable asset to General MacArthur in his dealings with the Japanese.

Stripling knew no Japanese words but he knew almost all there was to know about reds in Washington including Pearson's red employees and proteges of Felix Frankfurter, who was the enemy of Gene Meyer of the Washington Post.

**ONE COLUMN WROTE AN INDISCREET**—One column wrote an indiscreet letter expressing fear of abuse by Pearson in print and on the air. Stripling should be discharged. However, Stripling managed to get the ear of old John Rankin, the Washington "Democrat" who is a few other inveterate red-baiters and to put to some pro-American press the proposition that it was mighty naive to think that a man of such great potential value to MacArthur had not been made to make even Pic in a whole year.

**STRIPLING WAS RETURNED TO THE**—Stripling was returned to the house committee on un-American activities and presently bowed out with a nice nest-egg, the proceeds of a book relating his knowledge of the treason. He deserved it. He and his family could never be compensated for the cruelty inflicted on them by the Roosevelt regime and their cover-red agents and dupes in American journalism.

For G. David Schine I can offer just one up which would justify an award of gratitude from the country. Here is an overrated earnest pro-American kid of 27, a Harvard alum with a year's active service aboard transport ships of the American army, who suddenly realized that Americans really and truly were his friends against only the enemy himself but against

the stupidity and other abuses ignorance of many other Americans of unquestionable loyalty.

Schine's parents operate hotels in New York and Florida. Being wealthy, he could serve McCarthy committee without pay and even carry his own expenses. He did.

The one fact of which I spoke was Schine's discovery of the fact that we were about to spend \$10,000 in the gross. The kid's army was confirmed and the station was not built there.

Schine's reward was a call from his draft board and a campaign of espionage and slander. Pearson hounded him and this time his abuse has included fifty sneers at Schine's personal morals. Eugene Meyer published this disgraceful stuff prominently, followed by the exhortation to the public to read him every day in the Washington Post and "hear him Sunday."

A few years ago, Schine wrote a pamphlet called "definition of communism" and spread many thousands of copies in hand about the country. The army and navy and other government agencies also distributed many copies. But, because, being the first, four inches tall, he requires a shoe bigger than the quartermaster could furnish, Schine had to wear non-regulation shoes during his basic army training. That was scandalously exploited as special privilege.

None of the same papers and column propagandists ever wrote a word about the special privileges given Eleanor Roosevelt's husband, Joe-Lash-or-about-John-McCarthy's testimony admitting official orders in the highest quarters of the army to get him soft, safe jobs which incidentally succeeded.

Lash is now employed on the very paper which has been persecuting Schine as a man who got "special treatment" in that he was not compelled to go barefoot in winter.

All this is a foul, dirty deal to stop the McCarthy inquiry.

Observe the history of these maneuvers. J. Matthews was run out of the important job of chief investigator because he had truthfully reported in a magazine article that Roosevelt's advisers were playing a dangerous part in the red conspiracy. Eisenhower fell for this plan and Matthews was removed. But a few days ago, the New York Times, in a Rome cable from C. P. Schineberg, a member of the Times' own royal family, reported that communist penetration had extended even into "administrative circles" of the Vatican.

There was no furor over that. The McCarthy inquiry is stopped.

# New Tax Bill Would Affect Special Cases

From Page Five

Mon. dollars a year. Their taxes would be cut by 20 per cent of their income from pensions, annuities, interest, rental or dividends up to \$1,000 a year. That would save a single person \$240, a married couple \$480 each with income. On top of all other deductions, it probably would relieve most and some of the tax bill at all.

About 64 million persons are expected to save 240 million the first year, \$14 million later, from a reduction in taxes on dividends. The first \$50 of dividends could be deducted from taxable income for this year, the first \$100 next year. Further, taxes could be cut by 5 per cent of the remaining dividend income this year, 10 per cent next year.

A married couple with \$5,000 in other income, and \$100 from dividends, would save \$10 the first year, \$20 the second. Taxpayers with large amounts of other income, plus large amounts of dividends and eventually would save roughly 10 per cent of their dividend; that is, for \$10,000 in dividends, the saving would be roughly \$1,000, for \$50,000 the saving would be about \$5,000, etc.

The saving can not be more than 10 per cent of total taxable income that is all income after regular deductions and personal exemptions.

**Large Medical Expenditures**

About 74 million persons would save \$6 million dollars a year. These are persons who itemize their medical deductions, rather than take the standard 10 per cent deduction.

Taxpayers would be allowed to deduct medical costs above 3 per cent of their income, instead of 5 per cent as at present. Take a family with \$6,000 income and \$800 in medical expenses. Now they could deduct only \$300 from their taxes. Under the bill they could deduct \$570, for an additional tax saving of \$24.

Maximum deductions, applying only in exceptional cases, would be doubled, up to \$1,000 for families.

**Widow's Tax**

Roughly close to one million persons would save a total of \$8 million, from provision letting taxpayers count their children as dependents even though the child earns more than \$600 (forbidden now). This applies to children under 19 or older children going to school. The saving would be \$120 for lower bracket taxpayers, more in the higher tax rates.

**Single Heads of Families**

About 750,000 single, widowed, divorced or separated persons who maintain a household would save about \$6 million from two changes. First, they would be allowed the full advantage now given married couples who split their income for tax purposes. They get half the advantage. The saving would be roughly \$84 at the \$6,000 income level, \$36 at \$6,000, \$92 at \$8,000, and more in the higher brackets.

Second, such persons would be allowed to deduct up to \$600 for the expense of caring for their children under age 10 while they worked.

The saving would be up to \$120 in the low tax brackets, more in higher brackets, for a total of 40 million dollars.

**Farmers**

All farmers would be allowed to deduct from their taxable income, the cost of soil and water conservation practices up to 5 per cent of their income. Because many farmers are in low tax brackets already, or pay no tax, the total saving would be only 10 million dollars.

For farmers paying a small tax now, this could relieve them of any bill. For large-scale farmers, the saving would be substantial.

**Gifts**

The bill would double the tax deduction in the first year of use for wear and tear on new buildings, plants and equipment. Although this applies principally to corporations, corporate persons and individual partners, farmers or businessmen would save about 75 million the first year, much more later.

In the latter years of use of the items, however, the tax deduction would be less.

**Party Held**

WENDELL, March 21—A party for H. L. Goble for caring for the Orange hall lawn was given Friday at the Orange hall.

Mr. and Mrs. Lawrence Hachman were high for pinocchio and Mr. and Mrs. John Perry were second. A gift was presented to Goble by Mrs. Fenton Hays.

## Life in Seconds

March 22—A new gas can with a new design for safety and ease of use is being made and will be available in 30 seconds.

The new can is designed by the U.S. Army Corps of Engineers, and is being made by the U.S. Army Corps of Engineers, and is being made by the U.S. Army Corps of Engineers.

# Safety 'Net' for Atlantic Flights

Positions of the internationally operated floating weather stations which help to guide and safeguard air travel across the Atlantic are indicated on new map. The stations provide weather reports, navigational information and search and rescue service. Under the recent agreement of the civil aviation organization, signed in Paris and effective June 10 of this year, 9 instead of 10 stations will continue to operate. A saving of approximately 3.8 million dollars a year is expected to result from the elimination of the one ship.

## Coaches Decide To Drop Annual All-Star Games

POCAHONTO, March 22 (AP)—The Idaho State coaches association has decided to drop the annual all-star basketball and football games.

This action came as the group met in Pocatello during the Idaho A basketball tournament.

The coaches decided to continue the annual coaching "clinic" they voted to hold in Pocatello on April 21.

### Tourney Off

The city recreation league basketball tournament, scheduled for this week, has been canceled.

The game will be open Monday and Wednesday night for free-play recreation and all other basketball games are scheduled to be held Wednesday night in a possible volleyball league.

The game will not be available Tuesday because of the Harlem Globetrotters game.

## Smart Money Backs Dodgers For Pennant

MIAMI, Fla., March 22 (AP)—The Brooklyn Dodgers are out to win a third straight National league pennant and the betting is they will do it.

They are going into the race with the best hitting club in the league, the best defensive team, one of the game's top catchers in Roy Campanella, and they also may count on the best pitcher in the world, Walter Johnson.

Mix them all together and you can discount the fact that they are going the post season in the league, a tall, scholarly, taciturn Walter Johnson.

There is no doubt about it—Alton, the freshman manager, has been given the horses. He's expected not only to win the National league pennant, but the world series as well.

After all, Chick Dressen was let out as pilot of the Dodgers in October because he couldn't beat the Yankees in the world series of 1937 and 1938, after winning two straight pennants.

Although he doesn't talk much, Alton does not appear worried. Neither does any of the other Dodger family from president Walter O'Malley on down.

"The never seen a pennant-winner with more drive than this one," said vice president Frank Thompson. And other Dodger backs agree.

As a club, the Dodgers are set except for their bench—and whatever players win those reserve spots, it is sure to be the strongest in the league. Those reserves probably could play regularly on most other teams in the league.

### Dartmouth Skier Wins

SUN VALLEY, March 22 (AP)—A stylish run down the alpine course coupled with fifth in the slalom, Sunday gave a Dartmouth student, Tom Corcoran, the Harriman Cup.

Corcoran slipped down the last ski course twice in brilliant sunlight in a total time of 2:08. His time was two seconds better than Jack Nagel, Ekronian, Wash., who took second in the slalom, Nagel also nabbed second in the combined.

Jack Redden, Sun Valley ski instructor from Salt Lake City, took a nasty spill and dropped from the running. He had won the slalom Saturday and was in a commanding position to be the 14th winner of the cup. Redden turned the trick before, in 1936.

Jannette Burr, Seattle, won the women's cup. She flew down the slalom women's course in 1:47. Miss Burr also won the downhill Saturday.

Behind Corcoran and Nagel in the combined were Karl Palmer, Stowe, Vt., who took third in both the slalom and alpine; Dick Puchner, Sun Valley, fifth in the slalom and seventh in the downhill; and Daniel Robison, Salt Lake City, tenth in the slalom and sixth in the downhill.

Trailing Miss Burr in the women's combined were Betty Neillinger, Breckenridge, N. Y., who took sixth in the slalom and second in the downhill; Miss Dorothy McDermott, Seattle, second in alpine and fourth in the downhill; Miss Anna Gilha, Boise, 13th in the slalom and third in the downhill; and Tina Jackson, Seattle, ninth in the slalom and fifth in the downhill.

## Explorers Set Five New Records in Winning NCAA

KANAWHA CITY, Mo., March 22 (AP)—Lafayette's Explorers, who played two men on the all-tournament team, set five of 12 new records and tied another in winning the 1938 NCAA basketball championship.

Montgomery looked like the team to beat in 1935.

Of the eight men whose play was the NCAA crown for the Phillips, this entry, only one will graduate this year: three seniors guard Frank O'Neal.

His of the eight men whose play was the NCAA crown for the Phillips, this entry, only one will graduate this year: three seniors guard Frank O'Neal.

The other is one man, guard Tom Gola, an all-American guard whose performance against both Penn State and Bradley in the week-end championship games kept all eyes on him.

Gola was the only unanimous selection for the all-tournament team that was announced Sunday following Lafayette's 27-20 triumph over Bradley Saturday night in the title game.

The six-foot, seven-inch phenom, who was voted the tournament's most valuable player, Gola, scored 35 points in the two games, 19 in each, and he personally sparked the third period

### Jenkins Keeps World Figure Skating Title

LOS ANGELES, March 22 (AP)—Hayes Alan Jenkins, twice world champion men's figure skater, won the world title today in Los Angeles.

There's a challenger rising fast for the 20-year-old Colorado Springs skater, who is expected to win the world title in 1939.

The champion retained his men's singles title Saturday in the United States championships, as expected, with a clean sweep of first place votes.

It wasn't as certain the other half of the Jenkins family entry would be as high. David Jenkins, his brother, finished second in the men's singles.

Mr. and Mrs. Hayes R. Jenkins, the boys' parents, aren't skaters. "I think Dad probably has skated three times," said Hayes Alan, "but he was a letterman for other sports at Akron (Ohio) university."

Blonde Teney Albright, 18, of Newton Center, Mass., had little trouble defending her senior women's crown.

The crowd's favorite was vivacious Catherine MacLeod, 17, from Los Angeles, who took second in the women's singles and the Oscar L. Richardson trophy for the most artistic free skating among both junior and senior women.

Claryn Lewis, also Colorado Springs, a 16-year-old, took third in the women's singles and fourth in the combined.

Jack Redden, Sun Valley ski instructor from Salt Lake City, took a nasty spill and dropped from the running. He had won the slalom Saturday and was in a commanding position to be the 14th winner of the cup. Redden turned the trick before, in 1936.

Jannette Burr, Seattle, won the women's cup. She flew down the slalom women's course in 1:47. Miss Burr also won the downhill Saturday.

## Giles Hits Back at Sen. Johnson For Criticism of Baseball Owners

TAMPA, Fla., March 22 (AP)—Warren Giles, president of the National league, branded as "poppycock" Monday "all this talk about big commercial interests owning baseball clubs to the detriment of the game."

Giles' statement was viewed as a thinly veiled reply to Sen. Ed C. Johnson, D. Colo., who has attacked ownership of the St. Louis Cardinals as "a beer peddling advertising scheme" for an Anheuser-Busch brewery.

"Baseball and baseball owners are being made targets for unjustified and unfair public criticism."

"I wish all business executives were motivated by the high principles and general desire to serve the public as I, in my 35 years in the game, have found baseball executives to be."

"I hope baseball clubs will continue to have the same fine ownership they have had in the past, and I mean Gus Greenwald, Col. Jack Ruppert, George Buchholz, Phil Wrigley, Powell Crosley, Walter Briggs, and other industrialists who have done so much for the game."

Giles touched also on criticism of the Cardinals' recent water deal for Vic Raschi, the former New York Yankee pitcher.

"It breaks me no end to hear the criticism of baseball's water rule by those who know nothing about the operation of its finances and advantage to the player," Giles declared.

"All waters clear through the league one and I have been administering the National League office long enough to know what is going on."

MIAMI BEACH, Fla., March 22 (AP)—Dick Mayer's steady putting under pressure and Tommy Bolt's work with a borrowed set of irons Monday drew equal praise in the wake of their stunning victory in the Miami Beach four-ball golf tournament.

Bolt, Houston, Tex., and Mayer, St. Petersburg, Fla., wound up tied with Dutch Harrison and Julius Borat at the end of the regulation 72 holes Sunday with 258 scores.

Then Mayer dropped a winning 18-foot putt for a birdie in a "sudden death" extra hole.

The putt was worth \$900 in the prize distribution, for the winners split a purse of \$3,000, while Harrison, Ardmore, Okla., and Borat, Mid Pine, N. C., shared second money of \$2,100.

Actually, five teams almost wound up tied for first place at the end of regulation play, finishing with 258 scores were Sam Seid, White Sulphur Springs, W. Va., and Jim Ferguson, San Francisco; Fred Harkins, 22 Bush, Tex., and Johnny Palmer, Charlotte, N. C. and Fred Hays, New Orleans, and Art Wall, Jr., Pocomo Manor, Pa.

MIAMI BEACH, Fla., March 22 (AP)—The International AAU boxing championships got under way at the Utah State Fairgrounds, continued here Monday as a two-ring circus.

Chairman Harold McNeil of the sporting Salt Lake City Athletic lodge said two things will be heard Monday and Tuesday nights in the early rounds in the hope that the record entry field of more than 100 men can be pared to permit semi-championship bouts only by Wednesday night.

Strictly a trial and only with most Idahoans hoping, from Twin Falls and Gooding, the tournament will be opened Tuesday with weighing-in ceremonies Monday afternoon. Pairings for initial rounds will follow the weighing-in.

A new facet has been added this year with the entry of a strong team of motion picture stars from Hollywood, the Indiana and Columbia boys, and the entry of a strong team of motion picture stars from Hollywood, the Indiana and Columbia boys.

The Indians, as well as other clubs which are unable to maintain extensive player assemblages, would like to have an unrestricted draft where all minor league players are and being brought up to the parent team would be placed on the block at each winter draft meeting.

As it is now, a club such as the Yankees stands to lose only one player each winter.

The "have" clubs naturally are fighting any such revision with claw and hoof, feeling it actually would strip and strip large minor league inventories.

Boys and girls and family groups will find a lot of fun at the Washington Recreation, who have an fun system with swimming, and the New York Yankees, whose teams are loaded with gifted youngsters.

The Indians, as well as other clubs which are unable to maintain extensive player assemblages, would like to have an unrestricted draft where all minor league players are and being brought up to the parent team would be placed on the block at each winter draft meeting.

As it is now, a club such as the Yankees stands to lose only one player each winter.

The "have" clubs naturally are fighting any such revision with claw and hoof, feeling it actually would strip and strip large minor league inventories.

### Letters Given Resting Place Before Blaze

and said "transfer as he and the state of Arizona are concerned the incident should be closed as closed."

There was one gnawing thought still remaining in the mind of the press some of the letters had been sent out by the "fire."

Meanwhile, the papers called to the office of Mrs. (Marie) Pratt, D. H. H. who had been framed by the fire.

Both papers and the papers emphasized they did not consider the incident liable. Probably nobody is.

The new management of the post-office under Postmaster General Arthur Summerfield has the red ink on its books. Much of this is explained by the paper's statement.

Beginning last Aug. 1 business-people Summerfield got congress to agree to police them. He figures out what congress does and presents it as a bill at periodic times.

Congress bill is a whopper. Summerfield will take the money for the material goods and services.

# Intermountain Shippers Given Time Extension

WASHINGTON, March 22. (Special) Interest of Intermountain area shippers has brought an increase in the time scheduled for hearings in Salt Lake City on the Mountain-Pacific class rate structure, an interstate commerce commission decision declared today.

Commissioner Anthony Arpaia, who along with Examiner Myron Witters will open a series of western hearings at Salt Lake City April 19, said the Interstate Commerce Commission has agreed to a postponement of the April 19 hearing.

"We wanted to allow plenty of time for shippers from Idaho, Montana and Wyoming to come in," he explained, "as all the hearings will be on the coast."

After the Los Angeles session, the IOO officials will set up shop in San Francisco April 20 and end up in Seattle May 6. The bulk of testimony is expected to be taken on the last day.

Not only the class rate structure for the West but new transportation rates are also under consideration.

# No Action Taken For Power Plans

BOULDER, March 22. (Times-News) A resolution received from the Cedar Draw Grange opposing the power and communications initiative, the resolution was turned over to the resolutions committee.

A showcase to be used for juvenile Grange work was presented by the Grange by Andy Baillings. Chris Hasselhoff reported on the Castle Rock park which is being completed west of Castleford. Members voted to begin meetings at 8:30 p.m. through the spring and summer.

The lecture's program was presented by Mrs. Rudolph Peterson and included musical numbers to be presented by the junior high students at the musical festival.

Deanna Owen played a cornet solo accompanied by Karl Owen. Two piano selections were played by Judy Bate and Linda Lath. Don Summers, Twin Falls, showed three films.

# Wank Gives Pointers in Case You Ever Attend Cat Auction

By HENRY McLEMORE

Ever attend a cat auction?

Neither I until last Sunday when I found myself in a spirited bidding contest for a seal-point Siamese in front of the cat cages of the Pet Shop of Cruelty in Antelope.

It all started the week before when Mary and I visited the SPCA looking for a cat and saw this real pretty Siamese kitten named as if the SPCA has to keep a stray for a length of time in the hope that the owner will show up before it can be given another home. So we were off to a black Sunday and that it was.

Right after church we got to the humane society and were there a good hour before the place opened, but we weren't there first. Parked right in front, in a great big car, was a man who had "I know a good Siamese cat when I see one" written all over him.

"Nice cat, but you are," Mary told me, "and maybe a little bit older, so you might be able to beat him through the door when it opens."

So we worked out a campaign of attack. I was to charge in with the man and stop with him at the desk to fill out forms and the like, and she was to plunge straight ahead to the cat department and take out a claim in front of the cage.

A half hour passed and 20 cars were parked around the place. Everybody in them was suspect to us. So we launched a propaganda campaign. Knowing that folks who like animals are friendly, we moved from car to car, striking up a conversation, and talking up dogs and talking down cats.

"We're looking for a puppy," I heard Mary tell a woman on Sunday, too. "We were thinking of getting a cat, but they are so superior and cold, and scratch at the furniture so."

"Long as I can have a dog I'll never have a cat," I told a cat-loving couple in a gray sedan. "I was here last week and they have some of the sweetest pups in there you ever saw."

We were spreading the anti-cat gospel when the doors opened, and I barely managed to go through the door with the man we feared the most. Mary streaked to the cat cage, but she got there in a photo finish with a man and his wife, both of whom had seen the Siamese kitten last week and were determined to get him. (Incidentally, the man we

feared turned out to be looking for a collie for his boy.) When I got to the cat department, Mary had her hand through the wire holding the other front paw. And the husband had a finger poked inside stroking the kitten's head. So I poked a finger through and started stroking the kitten on the neck.

We were in this position, and glowering at one another when the SPCA man came around. Mary said she'd die if she didn't get the kitten. The other lady said she'd die if she didn't get it. The other husband said

he'd die if his wife died. I said he didn't have anything on me—that I'd die if my wife keeled over from disappointment.

The SPCA man said there was only one way to settle the matter, and that was to auction off the Siamese. I didn't think much of this, having only \$10 in my pocket. I put a buck and a dime on it.

"One dollar," my little call. "Two bucks."

"Three bucks."

He looked at me and I looked at him. "Five dollars," the man called. "Make it six," I said feebly, remembering that I didn't have enough gas in my car to get home.

Well, he stopped at \$10 and I gasped a feeble "right one—here" and got the kitten.

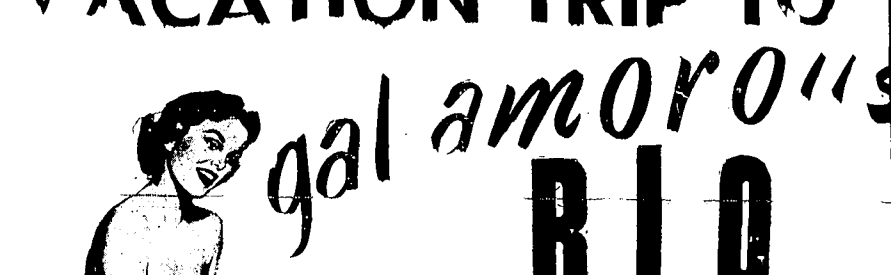

It rewarded me with a loving scratch on the face as we got in the car.
